Hightech Signs Shifts Business to Produce Custom-Printed Masks

Newly Launched Hightech PPE.com Delivers Buy One Give One Masks to our community.

Fort Wayne, IN: Today, Hightech Signs, an international sign printer/manufacturer located in Fort Wayne, announced a new business unit, [Hightech PPE](#). In response to the worldwide COVID-19 outbreak and reported shortages of available masks, Hightech PPE will sell and produce large quantity custom mask orders through its online website [hightechppe.com](#). All masks are made in the USA. Through their "What if Love Wins" Campaign, Hightech PPE will give one mask for every mask purchased. Our aim is to give 250,000 masks to local charities.

On the rapid start-up of HightechPPE, President Doug Abramowski said, "I am proud of our people. It was a difficult task to rethink this part of our business, but I am excited about how quickly they have responded to the challenge. If our masks can help people get back to their everyday lives in a safe manner, then we've done our job. We are delighted to deliver these much-needed masks to local shelters and charities."

In addition to several standard colors offered, online shoppers can also upload their own logo or pictures to create a unique custom mask. This custom design feature will only be available on orders over 100.
